On this episode of the Whisky Round-Up, Laphroaig 15 Year Old continues to dominate the world. There are so many awesome whiskies hitting shelves in 2018 that it's impossible to choose a favorite. We also discover the fascinating story behind the vintage Scotch we're drinking now, catch up on the most exciting news from the Scotch Whisky category, and discuss the latest trends in Scotch Whiskey and Scotch Whisky blends. Wrap-Up Don't miss the Whisky Round-Up for the rest of the Top Ten for 2018. We've got Single Malts, Blends, Reds, Cask Strength, and Special Releases to cover, and it's all here for you.Three more students have been granted posthumous honors for demonstrating an unusual principle of physics -- the idea that light can move faster than the speed of light. The students were among a group of eight who "received the Distinguished Alumnus Award," which is the highest honor given to a graduating senior, from the Department of Physics at the University of Maryland, College Park, during commencement ceremonies at the Davidson Center at the University of Maryland. The award is given to students who have demonstrated outstanding academic achievement, exhibited exceptional

I want to use Moq to mock my HttpGet on HttpClient. I read And I found I have to use HttpClientBase to mock HttpGet. That's ok. But I want to use Moq. But I have no idea how to use it. Here is my code: var mockHttpClient = new Mock(); var request = new HttpRequestMessage(HttpMethod.Get, ""); mockHttpClient.Setup(x => x.SendAsync(request)) .Returns(Task.FromResult(200)); var client = new HttpClient(mockHttpClient.Object); var response = client.GetAsync("").Result; var body = response.Content.ReadAsStringAsync().Result; Assert.IsTrue(body.Contains("The request did not contain any parameter name value pairs.")); A: 2d92ce491b
