ElectraX™ is a synthesizer and drum machine for the Windows platform that packs a big sound into a tiny space. At first glance, it can be difficult to tell what makes ElectraX special, but soon you'll discover that the combination of multi-award winning sound quality, a feature set that can only be found in a high-end synthesizer, and a user interface that sounds like an instrument itself are what make it so special. ElectraX comes with an instrument for bass, drums, vocals, and leads, plus percussion, a ton of loops, and over 30 instrument presets. ElectraX is a very compact synth with hardware controls, a high quality keyboard and a good sound. Mixing the good instruments, such as the drum machines, the instrument / synth and the synth lead is very enjoyable, and with all the samples you can dig really deep into the different styles and genres.
