[Website] [Quick Specs] [Thanks to the user] Hello everyone. I am about to start using this as my phone, but I have a question. I have a Sony Ericsson c310 with an FM radio. How do I edit and save the original files and the.ogg files? Thanks in advance.

Gabi I have tried to install a dual boot using logos on my e72 but it wont load! Is there any way of me installing logos on my e72??? Thanks in advance! hi, I'm trying to move from the series 60 to a 820 so I have to format the phone but I was wondering if I can just transfer my songs and ringer to the 820 through some sort of software and would that work? Or would I have to format the phone completely?1. Field of the Invention The invention relates to a decorative packaging container, and more particularly to a decorative packaging container capable of carrying a plurality of packages. 2. Description of the Related Art

Usually, the package can be classified into two types, including packaging of rectangular or square shape or packaging of polygonal or circular shape. Different shapes of packages can be used for packaging and selling different kinds of products. Therefore, a large variety of packaging containers can be made and sold to the customer, and the customer can freely choose the one suitable to his or her need and preference, thereby enhancing the sale of products. The conventional package is made of paper materials, such as cardboard, and has the shortcomings of low strength, high weight, and poor appearance, therefore, the package is not suitable for use as a packaging container for small products.Q: cuda function pointer cannot be compiled I'm trying to pass a pointer to a CUDA kernel in an CUDA program, but it won't compile because the compiler says that the pointer is incompatible with the function pointer: .h file typedef void (*kernelPointer)(const float *, float *, float *); .cu file

```
kernelPointer kernelName; And then in another function: void sampleFunction(const float *d_ptr, const float *h_ptr, float *d_output,
```
